

Dormitory to house 206 students will be constructed in an area South of Trinity Hall and West of the Freshman dorm. A pavilion-type facility it consists of four units connected by a common central entrance, and with slight modifications, is identical to the present Prosh dorm.

Federal Loan for New Dorm

Action taken by the Board of Trustees and the Board of Regents in February authorized the officers of the college to proceed with plans for a third dormitory made possible by a Federal College Housing Loan of \$1.2 million dollars. The new facility will house 206 students and increase the on-campus residency to 540 students. It is expected the new housing will be available for occupancy by September 1967.

The Board acted to raise tuition by \$200 a year to become effective with the entering Freshman Class of 1966-67. This makes the total tuition cost per year \$1,400 or \$700 a semester. A tuition increase was necessitated by the rising costs of private education, generally, throughout the country. This increase will enable the college to more adequately meet its operating expenses; assure a competent, qualified faculty with a salary scale to meet the highly competitive market; and provide for expanding the curriculum to achieve the goals of liberal education and technical preparation established by the college.

College officials were also directed to submit an application to the State of Florida Higher Education Facilities Program for a Grant, under Title I of the Higher Education Facilities Act of 1963, to build a \$700,000 Library to be constructed simultaneously with the new dorm. If this grant can be secured, the library will be built in the campus area between the present Administration Building and Carroll Hall.

Acquisition of an additional 58 acres of land West of the campus was considered an important step to take in the near future. Board members agreed the development plans of the college, which would result in completion in five years of an anticipated ten year program, demanded initiation of a comprehensive fund-raising program both for capital gifts and for operating funds.

Inter-Group Workshop March 19-20

A two-day workshop on inter-group relations will be held at the college, March 19-20. Sponsored by the National Catholic Conference for Interracial Justice, the workshop provides an opportunity for the study of human conflict and its resolution through the acquisition of insights and techniques for better human relations.

Outstanding feature of the workshop is a traveling group of Nuns holding doctorates in history, economics, sociology, anthropology, and social psychology, who form the teaching personnel. The Marymount team consists of: Sister Mary Audrey, S.N.J.M., Chairman, Department of Sociology, Maryhurst College, Oregon; Sister Mary Eric, S.S.N.D., Clinical Psychologist, Notre Dame College, St. Louis; Sister Yolande, O.S.F., Department of Social Science, St. Teresa's College, Winona, Minnesota; and Sister Mary Peter, S.S.N.D., Director of Educational Services for NCCIJ, Chicago.

The traveling workshop is affiliated with Loyola University, Chicago and has as its theme, "The Color of Truth."

World Community Conference Highlights

The first World Community Conference, focusing on the theme "World Community: A Challenge to Conscience" was sponsored by the college February 10-11. Bringing to the campus nine articulate speakers, representing scholarly backgrounds in political science, theology, sociology, psychiatry, and foreign relations, the conference examined problems of world population, world peace, and world understanding. Following each lecture session small discussion groups met and engaged the speakers in a question and answer period.

A summation of the conference highlights was presented by Sister Gerard including the following capsule statements by the lecturers: **Dr. Theodore R. Weber** - "We can't always be sure which side God is on . . . good and evil are not necessarily divided into two camps, but they co-exist in this world of ours, and if we theoretically divide the world into two groups, we must admit that good and evil will be found on both sides."

Rabbi Everett Gendler - "Be strong and of good courage. At a moment unseen, the unseeable will be visible . . .

for He did not create the world to be a desolation, but a habitation."

Rev. Philip Berrigan, S.S.J. - "Who is to judge the justness of war? Will not the Church condemn all wars as immoral? Does not each side always cry 'defense'? Nuclear warfare can never be justified because it has to degenerate into total war . . . Either war or man is obsolete."

Rabbi Isaac Neuman - "Never remain silent when freedom and justice prevail. There can be no peace unless a system of International Law is established and the UN considered as a World Court; until atomic warfare is outlawed."

Dr. Donald N. Barrett - "It is important to have respect for the individual and the family; for permitting the individual to fashion his destiny; for safeguarding personal rights against violation by government interference, coercion or control."

Dr. Joseph T. English - "Those who serve in the Peace Corps do not impoverish themselves but rather come back richer, having gained in personal insight, responsibility

and maturity . . . the experience is a confrontation with oneself and, in spite of disappointments, remaining idealistic but not fanatic."

Mr. John R. Yungblut - "Pope John has paved the way for the peace we are striving for, based on his proposition for a world community, where all disagreements would be settled through negotiation rather than nuclear warfare; for justice, right reason, and humility demand that war must cease."

Mr. James Douglass - "Christians have so thoroughly misunderstood Christ, for we can claim no faith in Christ, unless we have faith in the way of life He laid down for us. Christians must embrace the people of the world, and forget which ones are security risks! In war and peace, love is a leap of faith, towards the enemy who may even destroy us. Love is fearless, life-giving, non-violent."

Mr. L. Brent Bozell - "We must be Christians in an uncivilized world, a source of life withstanding the threat of death."
